BOARD OF REVENUE
4-FEB 1935
LAND REVENUE AND SETTLEMENT

GOVERNMENT OF MADRAS

Revenue Department.

SECY.
4-FEB 1935

MEMORANDUM.

No.391 E/35-1, dated 2nd February 1935.

Season - (South Kanara) - State of second rice crop - Legislative Council Question.

The Collector of South Kanara is requested to report very urgently through the Board of Revenue the state of the second rice crop in South Kanara and whether it has been affected by scarcity of water owing to the failure of the North East Monsoon.

H. R. Uzielli,
Secretary to Government.

To
The Collector of South Kanara.
Copy to the Board of Revenue, Land Revenue and Settlement.

Superintendent.

P.R.N. 6/4/35

Letter from E.M.Gawne Esq..I.C.S., Collector of South Kanara, L.Dis.615-35 dated 14th February 1935 to the -- Secretary to Government, Revenue Department, Madras through the Board of Revenue, Land Rev. & Sett.

Season - (South Kanara) - state of the second rice crop- report submitted.

It is usual for ryots to cultivate single crop II class wet lands and even some of the III class wet lands with second rice crop whenever the seasonal conditions are -- favourable. These lands are not charged with 2nd crop assessment, as they are registered as single crop wet lands. The second crop on some of these lands are affected by scarcity of water owing to the failure of the north-east monsoon. But the area affected cannot be said to be appreciable.

2. The second rice crop on I class wet lands and double crop II class wet lands has not been affected by scarcity of water to any appreciable extent. I have not noticed withering of the crop so far, though no doubt in a season like this the outturn will not be good.

3. Little faith can be placed in asseverations in the Legislative Council that South Kanara is stricken with calamaties. Even the rice hispa pest did not affect the outturn noticeably and the few ryots cajoled into taking active measures in their fields got no benefit for their trouble.

(with the Coll's letter in ref.)

M. 344 of

while III class wet lands are thei
less favourably situated. I class
wet lands are all and II class
wet lands are two which two wet
crops are grown are registered as
double crop while other wet lands
are registered as single crop.
Unlike in other districts
no charge is levied when a
second crop is grown occasio
on a land registered as single
crop. This system has been in vogue
for a long time and it was decide
to continue it at and during
the currency of the present Settl
The collr. says that the se
crop on registered d.c. lands has
been affected to any appreciable
extent by the scarcity of water and
that only the occasional second crop
grown on single crop wet lands has been
affected but not to any appreciable
such lands cases may deserve no
relief from Govt. as no second crop
charge is levied
